**Subject:** Comments regarding HHS policy on mandatory coverage of contraception  
**Date:** Friday, August 12, 2011 9:25:22 PM

---

I strongly disapprove of this policy. As the use of artificial means of contraception contravenes my religious beliefs, this likely would make it impossible for me to ethically maintain a health insurance policy for my family. This, in turn, has the potential to create obligations on public health care services in the case of serious illness or accident. Thus, this policy has negative public health and budgetary implications.

Dominic Jones, Ph.D.
